

ACE duct

fibre raceway outlet 100 x 100 mm

Article number: 600700

Date: 20-09-2019

ACE ducts is a flexible system in which fibre optic cables and fibre units can be installed. The system is fully enclosed protecting the fibre cables and units from dirt, dust and moisture. The ducts protect cables and fibre units against the most extreme conditions. They are manufactured from a halogen free, flame-retardant UL94/V0 polyethylene, and designed to meet material specifications required throughout Europe.

Product characteristics

Construction type	T-piece vertical falling along
Material	Plastic
Colour	Yellow
Cable tray height	100 mm
Cable tray width	100 mm
